Our potential risks and uncertainties are presented in the section titled “Item 1A. Risk Factors” disclosed in our Annual Report on Form 10-K for the year ended December 31, 2016. The following are some of the risks and uncertainties, although not all risks and uncertainties, that could cause our actual results to differ materially from those presented in our forward-looking statements:

- We rely on short-term secured borrowings which creates refinancing risk and the risk that a lender may call for additional collateral, each of which could significantly impact our liquidity position.
- All of our executive officers are also officers or managers Benefit Street Partners L.L.C. (our "Adviser"). As a result, our executive officers, our Adviser and its affiliates face conflicts of interest, including significant conflicts created by our Adviser's compensation arrangements with us and conflicts in allocating time among these entities and us, which could negatively impact our operating results.
- We terminated our primary offering in January 2016 and therefore, absent raising capital from other sources, will have less cash from financing activities with which to make investments, repay indebtedness, fund our operations or pay distributions.
- No public trading market currently exists, or may ever exist, for shares of our common stock and our shares are, and may continue to be, illiquid.
- Increases in interest rates could increase the amount of our debt payments and limit our ability to pay distributions to our stockholders.
- If we and our Adviser are unable to find sufficient suitable investments, then we may not be able to achieve our investment objectives or pay distributions.
- We may be unable to pay or maintain cash distributions or increase distributions over time. Our board of directors may decide that maintaining cash distributions at current levels is not in our best interests given investment opportunities or for other reasons.
- We are obligated to pay substantial fees to our Adviser and its affiliates.
- We may fail to continue to qualify to be treated as a real estate investment trust ("REIT") for U.S. federal income tax purposes.
- We may be deemed to be an investment company under the Investment Company Act of 1940, as amended (the "Investment Company Act"), and thus subject to regulation under the Investment Company Act.
- We update our estimated net asset value per share annually and such estimate may change significantly between these annual calculations.
